

# ROTISSERIE SPECIFICATIONS

Model : STEAMBOX

Manufacturer :

## A BEAUTIFUL DESIGN

Optimized product view thanks to front and back windows, a modern and innovative design down to the smallest details, quartz lighting protected by glass ceramic.

## CAPACITY

12 to 16 chickens depending on weight.

## PERFORMANCE

Incomparable cooking results, thanks to a combination of fan-assisted hot air (for a tender product) and direct infra-red heat (for color and crispy skin).

## ERGONOMIC

Glass doors which open on open sides, digital thermostat, automatic shut-off once the product is cooked, "temperature hold" mode and double windows on both front and back (opens on both sides).

## EASY TO CLEAN

Automatic steam cleaning program (15 min), fitted with 4 stainless steel cradles, glass touchscreen control panel, integrated rapid-drain fat tray and an interior which can be fully dismantled.

## SAFETY

Toughened glass protection, protected access to the fat tray.

## ELECTRICAL SUPPLY

208 V tri-phase  
25 Amps

### An innovative basket

The Stand-up® basket, a new Dorégrill patent to make your life that much easier... Chickens are held upright, increasing oven capacity. With only 3 bars, it's light, easy to clean and really shows off your products.

| Model    | Length  | Height | Depth   | Number of baskets | Power | Capacity per hour (depending on weight) |
|----------|---------|--------|---------|-------------------|-------|---|
| Steambox | 33 3/4" | 35"    | 30 1/2" | 4                 | 9 kW  | 16 Vol.                                 |
