

ROTISSERIE

SPECIFICATIONS

Model: D-ONE

A BEAUTIFUL DESIGN

"Showcase" cooking with a panoramic view (2 glazed sides), large glazed surface area, Stainless-Steel design, red enamel interior, rotating basket movement. powerfull quartz and Led lights.

Practical, Efficient, Aesthetic while being 100% SELF-CLEANING, the D-ONE innovation suits all your professional requirements, and those of your customers.

OUTSTANDING MIXED CAPACITY

The D-BOX multi-function rotisserie oven rise all challenges: cook 24 crispy roast chickens the old fashion way in 30 minutes.

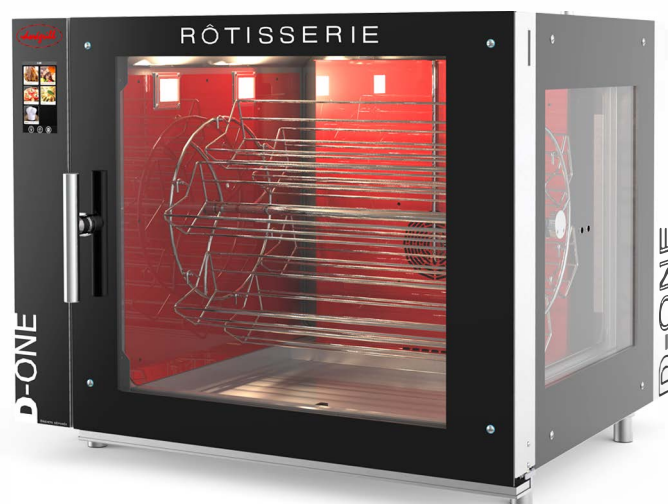

- 24 chickens (depending on weight)
- 11 GN 1/1 containers
- 11 1/1 racks
- Large meat spit

PERFORMANCE

Incomparable cooking results thanks to the programs (SmartCookingFunction®) by association of hot pulsed air and direct infrared, which make it possible to combine "the softness and the colourful crispy appearance of the products" per hour, depending on the weight of the birds. Plus the steam option for cooking delicate foods (Smart Cooking Function).

ERGONOMIC

- Small footprint
- Multifunction touchscreen for fingertip control
- Built-in intelligent program.

EASY TO CLEAN

Scenario cleaning program (iCleanControl®) with washing arm. The D-ONE is 100% self-cleaning. Waterproof glass touchscreen control panel, built-in rapid-drain fat tray, and removable interior

SAFETY

Double glazing on both sides, open-door sensor, waterproof touchscreen panel.

ELECTRICAL SUPPLY

220V tri-phase
40 Amps
